

2nd Workshop on IEA PVPS new Task ‘PV for Transport’

Date & Time 12 September 2017, 13:00 – 17:30 (tentative)
Venue the Ministry of Transport Innovation and Technology, Austria
(Radetzkystrasse 2, Vienna, Austria)
* detail should be announced soon.

Objectives

IEA PVPS is preparing for launching new Task ‘PV for Transport’, in order to contribute to deployment of PV usage in the transport sector. In May 2017, a concept of this new Task was approved at the 49th PVPS Executive Committee (ExCo) meeting, and a detail workplan of the Task will be developed until the 50th ExCo meeting in November 2017.

The 1st workshop was organized in Washington D.C, USA, on 28 June 2017, and a fruitful discussion on the concept and scope of new Task was made.

In order to develop the workplan, the 2nd workshop will have following objectives:

- sharing concept and scope of new Task
- discussion on detail contents (Subtasks and Activities) of the Task

Expected participants

Expected participants of the workshop are

- experts having a possibility/potential of joining this Task
- experts having ideas on this topic, ‘PV for Transport’

*Pre-registration is requested: see ‘Contact’
