1 Current prices.

2 ISO country codes are outlined in Table 12.

3 ISO currency codes are outlined in Table 12.

4 Figures generally refer to 'typical' module prices; where there is a wide range in the figures presented for a given country, the lower value generally represents the lowest price achieved & reported (often for a large order) whereas a significantly higher figure can refer to special products, roof tiles etc. Details are contained in the individual national reports.
